

CLEARFLOW CF

ELTA

Roof Mounted Discharge Centrifugal Fan

>> **Select** models available for next day delivery

CLEARFLOW CF

Product Overview

- 5 standard sizes from 315mm to 500mm
- Air volume flow rates up to 2.66 m³/s
- Static pressures up to 618 Pa
- Suitable for operating temperatures up to +60°C
- Can be mounted at angles of up to 30°
- Available in **AC**

The Clearflow CF range of vertical discharge centrifugal roof fans incorporate advanced backward curved impellers, with three dimensional profiled blades.

Intelligent Design

Vertical discharge of air, projects odours away from potential occupied areas.

Easy Installation

Can be mounted at angles of up to 30° which means the fans can be fitted directly to pitched roofs. Spigot is on the underside of the unit and can be fitted directly to the main duct.

Space saving

External roof mounting outside of the building is ideal where space is a premium. Bird guard fitted as standard to stop damage by wildlife.

Efficient Performance

Energy cost savings are achieved by providing the highest efficiency at operating point with virtually no air, performance or redirecting losses thanks to the unique impeller blade geometry.

Weather Resistance

Wind guard fitted as standard to reduce noise, and draughts entering the duct. Easily removable for cleaning and maintenance.

Controllability

A range of transformer voltage controllers used to provide five speed step control of single phase or three phase motors. Reduced fan speed can provide significant cost-savings through lower energy consumption in both mechanical energy of motors and also on the conditioning of replacement air.

Warranty

Each CF has a 12 month warranty.

Construction

The Clearflow CF all metal fan casing provides a long lasting and robust construction. The casings are manufactured from pre-galvanised sheet steel.

Motor

Units have an AC external rotor motor fitted as standard. The motor contains sealed for life bearings. All motors are suitable for use in ambient air conditions up to +60°C.

Impeller

Free running impeller with 7 backwards-curved, fluted blades made of high-performance composite material providing high volume flow rates, high efficiency and low acoustic power levels.

Typical Applications

- Industrial
- Commercial Kitchens and Catering
- Hospitals
- Bakeries
- Forges and Foundries

Data provided is at standard air density of 1.2 kg/m³.

Data in accordance with ErP 1253/2014 of the European Parliament. Product category is NRVU. Measurement category used to determine energy efficiency: C.

Peak Amps @ 230V / 1PH / 50Hz.

The overall A-weighted sound pressure level is at a distance of 3m with spherical free-field propagation. It is expressed in dB re-20µPa and is presented for comparative purposes only.

Data provided at standard air density of 1.2 kg/m³.
 Tests and preparation of the sound data have been carried out in accordance with BS 848 Part 2:1985 at 50% peak pressure.
 The Sound Power Level Spectra are in dB re-1pW.

Dimensional Data

Single & Three Phase

Product Code	A	B	C	D	E	F	Weight kg
CF315/4-1AC	520	340	435	50	310	410	25
